

Shopkeeper Operating Guide

Welcome! AutoPrint allows customers to upload PDFs and print directly at your shop. Follow this simple guide to understand the system.

How Customers Upload PDFs

1. Customer scans the **Counter QR Code** using their phone camera.
2. They select a PDF file from WhatsApp, Downloads, or Documents.
3. They choose number of **Copies**, color mode (**Black & White** or **Color**), and page sides (**Single** or **Double** side).
4. They click **Print** to send it to your queue.

Windows Desktop Program Setup

The program on your computer connects your physical printer (Epson, HP, Canon, etc.) to the online customer queue.

- **Keep it running:** Make sure **AutoPrint.exe** is open. Look for the small icon in the bottom-right Windows taskbar tray.
- **Check System light:**
 - **Green light:** Active and ready to print.
 - **Blue light:** Currently printing a file.
 - **Red light:** Error! Check internet or if printer is offline.
- **Set Printer:** Right-click the tray icon, click **Configure**, and choose your physical printer name.

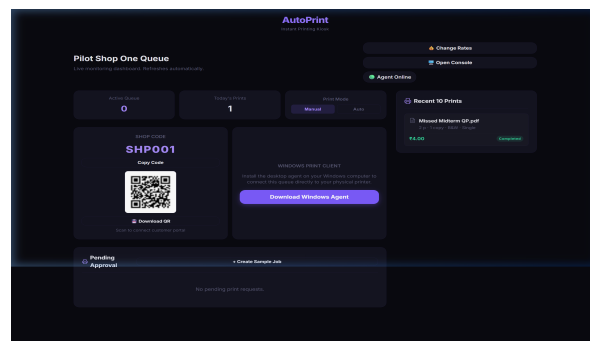

Desktop Program Quick Checklist:

1. Make sure your computer is connected to the internet.
2. Ensure your physical printer has paper and ink.
3. Keep the PC awake (turn off sleep mode in Windows settings so printing doesn't stop).

Shopkeeper Dashboard

Open the web dashboard on your phone or computer to manage operations:

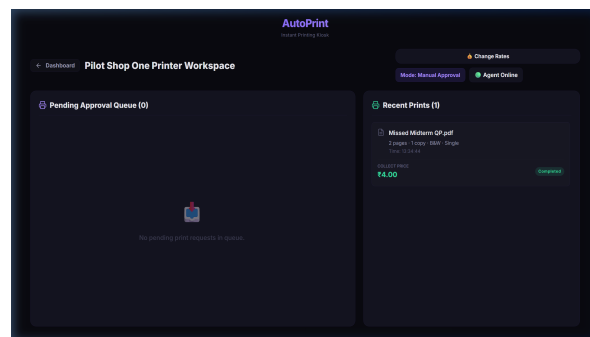

- **Print Mode Toggle:** Switch between two modes:
 - **Manual Mode (Recommended):** Each print request waits for you. Collect money first, then print. Saves paper from wasted prints.
 - **Auto Mode:** Prints are spooled instantly. Good if you are busy.
- **Agent Status:** Shows **Agent Online** or **Agent Offline** (heartbeat updates every 20s).

Cash Collection & Print Console

Click **Open Console** on the dashboard to view incoming files:

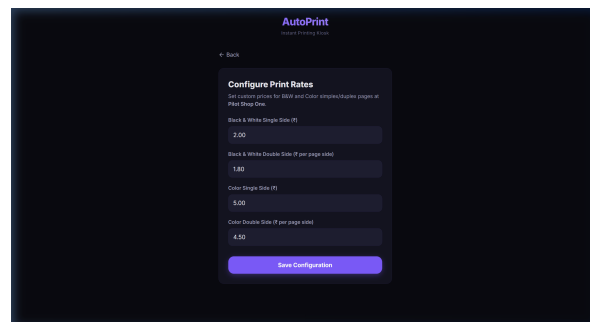

1. Customer upload details (Pages, copies, B&W;/Color) are shown.
2. Look at the **Collect Price** badge (e.g. **₹12.00**).
3. **Collect cash or scan UPI first** from the customer.
4. Click **Approve & Print** to print, or **Reject** to delete the job.

Changing Rates & Prices

You can change print pricing at any time to match your rates:

1. Click **Change Rates** in the dashboard header.
2. Set prices for Black & White (Single Side), Black & White (Double Side), Color (Single), and Color (Double) side prints.
3. Click **Save Rates** to update prices instantly.
